## that's right... 2 meter SSTV

Shown above are four hams who have had so much fun working SSTV on 2 meters and 220 that we asked them if they'd make a few comments about it for one of our ads.

We went up to Los Angeles (where they all operate) and chatted with them a bit. They all agreed that one of the biggest enjoyments of working 2 meter SSTV is the new dimension it adds to 2 meters, far more interesting and creative than operating radio alone.

They noticed a steadily increasing SSTV activity on 2 meters, observing that there must be 50 or more operators working SSTV on 2 meters or 220 in LA alone.

One observed that working DX doesn't offer the challenge it used to, since you can buy all the power you want, ... "So where's the challenge. SSTV is the new challenge!"

They work a schedule once a week or so, and have little problem in raising SSTV contacts. "In fact, everytime we get on the air," Judge Ritzi noted, "we have break-ins from a lot of hams wanting to know more about SSTV."

And a bit of information that hadn't occurred to

us; their families really get interested in SSTV. They all enjoy it, and often work together preparing the art work and pictures for the production of their 'TV' shows.

We were very grateful for their comments, and, for the time they gave to us. Thank you gentlemen.

We can't guarantee that you'll appear in one of our ads when you begin working SSTV on 2 meters, but we're pretty sure we can guarantee you as much enjoyment as our "2 meter SSTV Gang" from Los Angeles.
